

Modules: Collateral Damage - Class Loader changes

- Why do we care?
 - Top-level Class Loaders no longer readable/modifiable
 - Affected Clojure libs
 - `java.classpath`
 - `dynapath`
 - `pomegranate`
 - `cider`, etc

Modules: Collateral Damage - Class Loader changes

- Why do we care (part 2)?
 - Clojure no longer loadable from the bootclasspath (CLJ-2077)
 - Breaks `lein`, maybe other CLI tools that use the BCP hack
 - Does not affect `boot`
